# EVAN DEAVER

**Data Analyst | Business Intelligence | AI Data Quality**

Remote, US | edeaver06@gmail.com | GitHub Portfolio | LinkedIn | Tableau | Kaggle

## PROFESSIONAL SUMMARY

Google-certified Data Analyst working in SQL, Python, R, and Excel. Builds tested data pipelines, analyzes betting markets and election forecasts with careful statistics, publishes Tableau and Streamlit dashboards, and performs data QA on AI model outputs.

## TECHNICAL SKILLS

- **Languages & Querying:** SQL (Google BigQuery, PostgreSQL, DuckDB), Python (pandas, statsmodels, SciPy, pytest), R (Tidyverse, ggplot2), Advanced Excel (Pivot Tables, Power Query, XLOOKUP)
- **BI & Visualization:** Tableau (Tableau Public), Streamlit, Power BI, Dashboards, Metric Reporting
- **Data Quality & AI Operations:** Data Validation & Reconciliation, Anomaly Detection, Automated Testing (pytest), Human-in-the-Loop (HITL) Model Evaluation, Multimodal Data Annotation
- **Statistics & APIs:** Hypothesis Testing (Holm), Regression (statsmodels), Brier Scores, Walk-Forward Validation, REST APIs

## FEATURED ANALYTICS PROJECTS

Olist E-Commerce Delivery & Reviews Analysis | SQL, Python, automated tests

- **Question, Method & Result:** How does late delivery affect customer review scores? Analyzed 99,441 Olist orders through a SQL pipeline verified by an automated test suite of 70 passing tests.

Steam Pulse: Live Steam Player Analytics | Python, Streamlit | Live app

- **Question, Method & Result:** Which Steam games do people actually play? Built a live Streamlit app tracking 6.22M concurrent players across 1,029 games; the top 10 games hold 40.1% of players, and players drop 44% after the first month.

NFL Closing Line Efficiency | Python (pandas, statsmodels, SciPy), SQL, DuckDB, pytest

- **Question & Data:** Can popular betting strategies beat the closing line? Tested 10 strategies across 7,354 NFL games (1999–2026).
- **Method & Result:** None beat the -110 vig after Holm multiple-testing correction; closing spreads are unbiased (slope 1.04, 95% CI 0.99–1.09); betting every favorite lost 7.0% per bet over 7,122 bets. Walk-forward check: pre-2015 train, 2015+ test.

Markets vs Polls: 2024 Election Forecast Accuracy | Python, SQL, DuckDB, REST APIs (Polymarket, Kalshi), pytest

- **Question & Data:** Were prediction markets or polls more accurate in 2024? Scored Polymarket, Kalshi, and poll averages across 35 states.
- **Method & Result:** Brier scores 1 day out: Polymarket 0.042, Kalshi 0.043, polls 0.053. Polls missed 3.2 points toward Democrats on average (same direction in 31 of 35 states) and had the wrong leader in 4 states vs. 2 for markets.

Tableau Public Dashboards | Tableau Public

- **Question, Method & Result:** Published Tableau Public dashboards that make public datasets easy to explore, including CO2 Emissions, Google Fiber, World Happiness, and Global IQ.

## PROFESSIONAL EXPERIENCE

**AI Data Annotator & Model Evaluator | Outlier.ai** | 2025 – Present

- Perform data QA on Large Language Model (LLM) outputs on the Aether platform, auditing them for factual accuracy, safety compliance, and prompt instruction adherence.
- Classify defects using an error taxonomy, write qualitative reviews, and annotate multimodal text and vision data to improve model quality.

**E-Commerce & Digital Storefront Operations | Self-Employed** | 2003 – Present

- Manage multi-channel online sales, catalog management, pricing, and order fulfillment across digital marketplace platforms.
- Track inventory turnover across 200+ active listings in Advanced Excel and streamline shipping logistics.

## ADDITIONAL EXPERIENCE

- **Personal Shopper / Fulfillment | Instacart** — Executed order selection, inventory substitution, and last-mile fulfillment with high customer rating averages.
- **Substitute Teacher | Rapid City Area Schools (2011–2014, 2018–2021)** — Adapted to daily instructional assignments and managed classroom records.

## EDUCATION & CERTIFICATIONS

- **Bachelor of General Studies (Emphases: Business, Sociology, Education)** | Black Hills State University (2015)
- **Google Professional Certificates:** Data Analytics (2025), Business Intelligence (2026), AI (2026)
- **Kaggle Certificates:** Intro to Machine Learning (2026), Python (2026)
